

A Vision for the Milwaukee River Corridor

Milwaukee's Central Park?

While the City is undertaking a comprehensive neighborhood plan, a group of people have been ahead of the curve in protecting a valued asset. The Milwaukee River Workgroup is preparing an overlay district that will provide temporary limits on development to protect the river 'viewshed'. The boundaries of the overlay district include areas of Cambridge Woods. Come join the discussion on what the overlay district means and share your vision for the river corridor.

CWNA General Public Meeting

Tuesday, May 15
